DESCRIPTION

ABOUT PREDATOR

PREDATOR

Feadship

Dazzling the maritime realm since her maiden voyage in 2008, Predator stands as a peerless symbol of refined elegance and technical prowess. This Feadship masterpiece is more than a yacht; she's a groundbreaking marvel, notably distinguished as one of the quietest Feadships ever crafted and the first to grace the waters with a revolutionary reverse bow. Predator's unique allure lies not only in an impressive top speed of 25.5 knots, thanks to a visionary four-engine propulsion system, but also in her distinction as a technological sanctuary — a «temple of technology».

With a substantial GT of 1,467 tonnes, Predator yacht underwent a comprehensive refit in 2016, transforming her into a luxurious retreat for 10 guests across five opulent suites. This achievement is noteworthy, considering her original 2008 configuration hosted only six guests.

The full-beam master suite, located forward on the main deck, unfolds into a vast lounge, private office, and a spacious ensuite bathroom with his-and-hers walk-in dressing rooms. The three double suites and a twin suite, each equipped with full entertainment systems and lavish ensuite bathrooms, further accentuate Predator's commitment to opulence.

Maintaining a light forward principal deck contributes to Predator's exceptional speeds, reaching up to 25.5 knots at half load. The hydraulically-operated foremast creatively facilitates helicopter operations, showcasing the yacht's versatility. Constructed to meet Lloyds Register standards and MCA compliant, Predator yacht pairs an aluminum, composite, and GRP superstructure with a steel hull, ensuring a transatlantic range that complements her technical prowess.
